

“Freedom from the glasses – Yayyy !!!”

Patient Index	P1122203
Name	Samiksha Patel D/O Prof. R.S. Patel
Age	23 years
Place	Satna, Madhya Pradesh.

Samiksha is a Software Engineer by profession.

She always had her specs on – something that she always wanted to be done away with. With her hometown in Satna, her father, Prof. R.S. Patel, a celebrated mathematics professor in Government College, calculated the pros and cons of going to far-away metros for operation vs going for state-of-art eye-care in Sadguru Netra Chukitsalaya. And Samiksha, the daddy’s girl, readily bought his suggestion of coming to Chitrakoot for getting her lasik operation done.

As she got her initial investigations done, the father-daughter duo first enjoyed the natural bounty that Chitrakoot has to offer. Ancient Kamadgiri and Mandakini river snaan was joy to behold for her – after being in hometown after long-time. As she arrived on the allotted time for getting admitted for operation, she never thought it would be such a cake-walk. With successful lasik operation done, now she has got the freedom from the dependence on her glasses – and is pretty happy with excitement too!
