Samdaliya heard about the camp that was to be organized in Nagod. He is a small time farmer with very less land left. He was suffering from cataract since last three years and got to know of the camp being organized by Sadguru Netra Chikitsalaya through his community members.

“I live alone with my wife. I had cataract and was not having any means to get it operated. Thanks to Sadguru Netra Chikitsalaya that now with my operation done, I can restart my life with new zest – without any compulsory support required – on my own! “
